EXHIBITOR KIT

WHY EXHIBIT AT OUR SYMPOSIUM?

The continuous service record and the community rapport of the Shock and Vibration Symposium speaks for itself. With 92 Symposia under the community's belt, the 93rd Symposium promises to deliver what the organization has come to pride itself on; a quality technical conference. With the conference comes over 200 technical papers, tutorials, meetings, discussion groups, and other fora presented from experts in their field.

These presentations are geared toward an audience of approximately 350-500 representatives of the US Government and the commercial sector of the shock and vibration community. These attendees range in assignment from project engineers and program developers to project managers and product developers. We also have representatives from academia and have attendance from over a dozen different countries.

We have attracted the largest names in measurement, testing, and equipment in our exhibit hall. Below is a list of many of the exhibitors who have joined us in the last few years.

VENDOR SESSION

Exhibitors have been a growing part of why the S&V Symposium is successful. To provide exhibitors with more opportunities to reach attendees, the Shock and Vibration Exchange is offering a vendor session.

How it works:

- Each vendor who registers will be scheduled to provide a 20-minute presentation about a new technology, case study, or otherwise interesting topic of **technical interest** to our attendees.
- Presenters may use a prepared video presentation, perform a demonstration, or perform an oral presentation.
- Any questions after the allotted time slot of the presentation should be addressed with a business card or invitation to the attendee to visit the exhibit booth after the session.

How to participate:

REGISTER ONLINE DURING INITIAL EXHIBITOR REGISTRATION. COMPLETE AND RETURN THE FOLLOWING FIELDS BY **JUNE 30, 2023:**

- SAVE provides three top prizes. However, we also appreciate donations by participating vendors to attract more participants.
